*"The bike build was a fantastic experience where everyone left feeling accomplished and a more integral part of our team; we donated them to the Children's Rehab Hospital and all the kids are forever grateful for their free bikes!"*

*The buffalo is the icing on the cake, we liked the idea so much we began a buffalo hall of fame for those in our center who are weathering the storm. We look forward to working with Pete and CultureShoc again, so much that we are considering making them our official team builders!"*
